

Plastic Pollution and Solutions

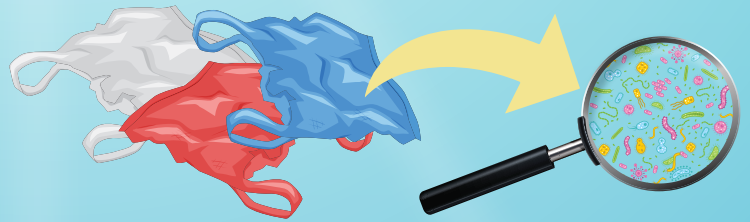

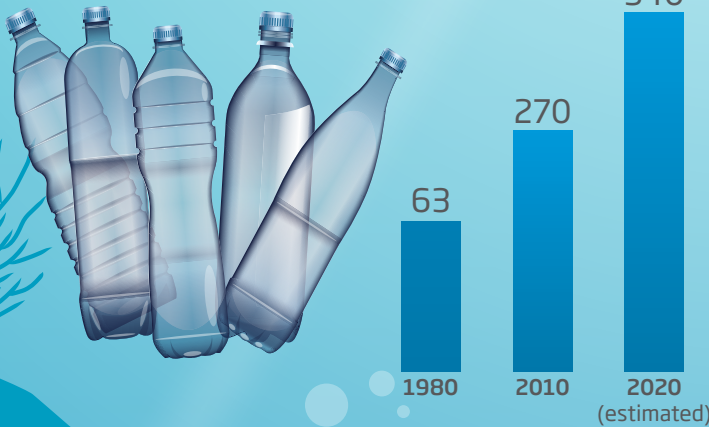

80%

of the marine debris comes from land, and ends up in the ocean through winds and currents

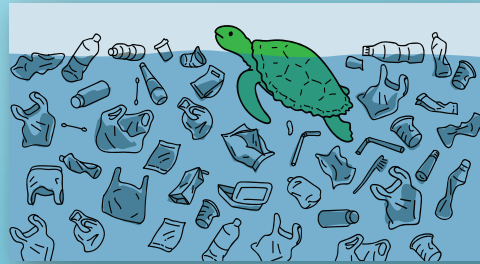

World Plastic Production

in million tonnes

A significant share of the growing amount of plastic used by humans ends up in the ocean

There will be
MORE PLASTIC
THAN FISH
in the ocean by 2050

SOLUTIONS

1

CAN IT - Use trash cans with lids

2

TAP IT - Use tap water in a reusable bottle

3

BUTT IN - Write your legislators to ask for policies that address our ocean trash problems

4

RECYCLE IT - Take the extra step to sort and separate items that can be recycled

5

REUSE IT - Bring reusable coffee cups and shopping bags while you're out and about

6

REMOVE IT - Help clean up our coasts!

When you refuse to reuse, it's our Earth you abuse.
There is no Planet B. **Be part of the Solution.**
Together we can **Make A Good Future Happen.**
